EXPERIENCE

Full Stack Development Intern | 2021 - Present

Wander | Orem, Utah

Full stack software engineer over app development for a local mapping startup receiving **\$250,000+** in funding. Specializing in **JavaScript and React**, I translate Figma layouts into viable products through consistent sprint-planning and code execution.

- **UX/UI** feature implementation for key user pages
- Working alongside the development team to create a cohesive mapping application (including trials, informational guides, and more) for local investors and users on both **web and mobile** devices

Software Development Consultant | 2021 - Present

Tower Media | Vineyard, Utah

Developer working alongside the **CEO & founder** of Tower Media to provide a wide variety of clients with functional, modern, and state-of-the-art products. Clients include **Clubhouse (drop-in audio chat)**, **Beofior Wellness**, and more.

- Developed backend features of the messaging application on **Clubhouse**, a modern audio-based social media application valued at over **\$100 million**

On-site Recommendation Specialist | Feb. 2018 - Oct. 2020

Boostability | Orem, Utah

- Optimized meta titles, descriptions, <H1>, <H2>, and alt-image tags on client webpages
- Made edits through **Wordpress** for SEO
- Streamlined **QA** process for team
- Created blog and social media content

Keyword Research Analyst | Mar. 2017 - Feb. 2018

Boostability | Orem, Utah

- Performed **data analysis** to execute and/or recommend keyword changes for clients
- Regularly completed **competitive analysis** to ensure proper recommendations were made

SEO Fulfillment Specialist | Feb. 2016 - Mar. 2017

Boostability | Orem, Utah

- Worked with team to fulfill **SEO** change requests
- Researched target demographics to verify change requests

Data Research Analyst | Feb. 2013 - June 2013

AutoAlert | Laguna Hills, California

- **Tested software** to assist dealerships in the organization and maintenance of client data
- **Created documentation** aiding other analysts to test future software releases
- Input and maintained sensitive client data

EDUCATION

Utah Valley University | B.S. in Computer Science

- Expected: May 2022, Received: Associates Degree, Computer Science
